Subject: Re: lantea Lee

1. What is the nature of the operation Ms. Lee will be receiving?
bilateral endoscopic carpal tunnel release. To relieve pain and numbness from carpal tunnel syndrome.
2. What will her short term limitations be as a result of the surgery?
For approximately 6 weeks, she may have limited use of both hands; as in, no firm gripping, no lifting over 5 pounds, no repetitive use, no awkward wrist positions.
3. What will her long term limitations be as a result of the surgery?
No long term limitations.
4. What specific restrictions will she have as to caring for her children?
No lifting over 5 pounds.

Hi MS. Dykes,

I represent Jamarr Smith, the father of lantea Lee's children. We are attempting to obtain his compassionate release from prison so that he can care for his children while Ms. Lee is recovering from her surgery.

In order to get that, I have to explain to the court why Ms. Lee cannot care for her children for a period of time.
